African Leadership University, Kigali, Rwanda

B.Sc. (Honours) Software Engineering, First Class, GPA 4.52/5.00

2026

Google Project Management Certification, Coursera

Aug 2024

PRODUCT & ENGINEERING EXPERIENCE

Venue Manager, [venuemanager.net](#)

Aalborg, Denmark (Remote)

Systems Developer

Apr 2026 – Present

- Built Venue Intelligence to bring ticketing, access control, POS, and app data into one view for 150+ customers across Denmark and Germany, covering 6M+ sales and 20M+ scans annually.
- Reduced manual report stitching by ~2–4 hours per week per venue team by consolidating customer and revenue data into a single reporting view.
- Connected Dynamics and Klaviyo to Venue Intelligence, reducing manual exports and reporting for finance and marketing teams.

iDiscover, [idiscovr.app](#)

Kigali, Rwanda

Co-Founder & CTO

Feb 2026 – Present

- Co-founded iDiscover to help emerging artists find collaborators; 102+ signups across 2 Nigerian universities via a campus ambassador programme.
- Built a matching engine using genre, location, recency, and engagement signals to suggest collaborators based on musical fit rather than follower count.
- Cut onboarding from 11 to 4 screens after spotting user drop-off, then added one-tap music imports, reaching 92% completion and 45+ signups in one week.

Citizn, [citiznvoice.com](#)

Lagos, Nigeria

Founder

Aug 2025 – Mar 2026

- Founded Citizn after identifying a gap in how infrastructure issues are reported; piloted in Nigeria, reaching 65 active users and ~50 reports.
- Built an AI verification pipeline using Gemini 2.5 Flash to validate photos, location, and metadata and convert reports into clean infrastructure data.
- Spoke with government stakeholders on adoption requirements, focusing on data privacy, safety and integration with existing reporting processes

LadX, [ladx.io](#)

Kigali, Rwanda

Product Lead & Founding Engineer

Feb 2025 – Sep 2025

- Led a team of 4 engineers building a marketplace connecting travellers with spare luggage space to people shipping goods across Africa.
- Identified a gap in the cross-border purchasing journey where buyers struggled to source vendors; proposed and added Shop & Ship to the product roadmap, bringing verified vendors onto the platform.
- LadX as the marketplace expanded to 5+ African countries, moved 3+ tonnes of cargo and paid \$30K+ to travellers as a result of this new feature.

ADDITIONAL LEADERSHIP

Swift Haven, [Website](#)

Kigali, Rwanda

Tech & Outreach Co-Lead

Mar 2024 – Present

- Raised a total of \$11k + for menstrual health access and education in Kigali, reaching 1000+ girls.
- Won 10 M RWF on Sept 11, 2026 via the Imbutu Foundation accelerator programme to help launch our smart pad dispensers (Lyft)

TEDxALU, [Website](#)

Kigali, Rwanda

Operations Project Manager

Jan 2024 – Dec 2024

- Sourced 30% of a \$2K event budget through visibility partnerships with companies like Rwanda Events and Rwanda Development Board.
- Managed logistics for 320+ attendees, including guest itinerary and venue set-up.

African Leadership University, [ladx.io](#)

Kigali, Rwanda

Student Life Operations Intern

Aug 2023 – Dec 2024

- Coordinated onboarding for 1,000+ incoming students from 40+ countries with 300+ volunteers across four intakes.
- Ended the orientation week (onboarding) with a culturally themed event called “Ikaze”, meaning welcome in Kinyarwanda.
